

Ltd Latvian National Metrology Centre
Daugavpils department

Daugavpils department realize calibration of measuring instruments in not accredited sphere, providing traceability measurements up to the international SI:

№	Measuring instrument	Characteristics	Requirements
1	Vernier callipers	technical documentation	LNMC G69
2	Micrometer	technical documentation	LNMC G66
3	Indicator	technical documentation	LNMC G68
4	Set of gage blocks	technical documentation	ISO 3650
5	Road tankers	technical documentation	OIML R80
6	Milk coolers	technical documentation	LNMC P143
7	Metal capacity measures	technical documentation	LNMC P108
8	pH tester	technical documentation	LNMC F16
9	Photoelectric colorimeter	technical documentation	LNMC F43
10	Refractometer	technical documentation	LNMC F26
11	Millivoltmeter, logometer, temperature regulator	technical documentation	EN 50112
12	Thermocouple	technical documentation	EN60584, EA10/08
13	Secondary pressure, flow and level devices	technical documentation	EN 60751
14	Traction, gas flow measuring devices	technical documentation	OIML R101
15	Thermostat	technical documentation	EA10/13
16	Calibrator	technical documentation	LVS EN 60051
17	High voltage device for isolation control	technical documentation	LVS EN 61557
